

The Reamco Advantage

There are hundreds of downhole tool and manufacturing companies. The question to ask yourself is, "Why choose Reamco?" Here's why:

- Stability — In business for over 20 years
- Quality — API Spec Q1 7th Edition and ANSI/ASQ 9001:2000
- Service — Customer focused

Quality Policy

Quality is integral to everything we do. Quality is everyone's responsibility. Reamco, Inc. will continuously improve its customer service to better satisfy the needs of its customers and will deliver to them, on time and every time, defect-free products and services conforming to customer requirements.

Executive Management demonstrates its commitment to this policy by leadership that guides all employees in continually improving quality, service, value, and technology while meeting all statutory and regulatory requirements. Management Reviews of operational and business performance data, Customer Satisfaction Surveys, audit results, and the results of corrective and preventive actions are used to assess the effectiveness of the System and identify areas in need of correction, in order to implement those changes that will result in continual improvement.

This policy has been formulated by the President of Reamco, Inc. and approved by its staff. The policy is explained and discussed at the general orientation training given to all existing and new employees. The policy is also posted in conspicuous locations throughout the company.

Reamco has a 30,500 square foot state-of-the-art machine shop and a new facility located at 1149 Smede Hwy. in Broussard, Louisiana!

Our Experience is Your Gain

Oil field service companies come and go. It's comforting to know that Reamco has been in business for over 20 years. Reamco will continue to be the company on which you can depend.

Experience translates into reliability. So it's easy to understand when customers come to Reamco they keep coming back. In fact, 90% of Reamco's business comes from repeat customers. Experience has earned Reamco trust worldwide.

Reamco has over 250 years of combined work experience. Because our employees are highly skilled and experienced, you get consistency in work performance and a superior product.

"At Reamco, our hands-on approach to customer service means we do whatever it takes to get the job done right. Our customers know that...and they keep coming back."
-Brent R. Milam, President

Certified to Ensure Quality

Reamco is serious about drilling tools, especially when it comes to quality. Reamco is both API Spec Q1 7th Edition and ANSI/ASQ 9001:2000 certified. Reamco willingly invests the necessary resources to maintain the high standards these certifications demand. Quality control is guaranteed at Reamco.

Big Enough to do the Job, Small Enough to do it Better.

Reamco's customers can be found both nationally and internationally. Because we haven't allowed ourselves to grow too quickly, we take a hands-on approach to

each job. This enables us to pay attention to the smallest detail as well as consistently provide a quality product. Since we're not hindered by size, Reamco reacts faster and you get your deliveries sooner. Our system is streamlined for customer-focused

service. Imagine dealing with the same individual at Reamco from the beginning of your job to the end. This also ensures a near zero product failure rate.

Products That Get the Job Done

We offer a full range of drilling tools and accessories:

- Welded Blade Stabilizers
